Sir:

In response to the telephone communication of February 11, 2005 where it was discovered that the PCT Application PCT/EP03/00373 filed at the USPTO had an error in that claims 10 and 11 were written as one claim. Applicants filed Preliminary Amendment of July 21, 2004 is incorrect due to this error. Applicants file the present preliminary amendment to correct this error. This error was clerical in nature without any deceptive intent and should not affect the enforceability of any patent issuing from the instant application.
